🎗 INTERESTS

- Ctf's
- Fitness
- Scouts
- Traveling

🧠 SKILLS

- HTML, CSS, Javascript , SQL, Laravel (PHP), Java, Python, .NET (C#), Kotlin
- React.js, Tailwind CSS, Flutter, REST Services, MySQL, Spring, JavaFX, Android SDK
- Git, Gitlab, Github, Visual Studio Code, Android Studio, Jetbrains, Figma
- Security Tools (Burp, nmap, ...)
- Linux/Windows
- OWASP Top 10

🎓 EDUCATION

Bachelor of Applied Science in Applied Computer Science; Major in Cybersecurity
Howest University of Applied Sciences ⧉
2022 – 2025 | Belgium

TCM Practical Ethical Hacking
2023

Studying HTB Bug Bounty Hunter Job Role Path
present

Cybersecurity Researcher and Hackers Community Growth Internship
Intigriti ⧉
present

📁 PROJECTS

Honeypot ⧉
A semester long project consisting of:
- Setting up and securing the honeypot server
- Setting up and monitoring an extensive secured logging environment
- Pentesting of other honeypot servers

Adria ⧉
A semester-long project focused on devising a post-apocalyptic solution for Earth's inhabitants. I created a full-stack Event Planner App, enabling the creation and participation in events within designated 'safe' locations.

Mobile Security Project ⧉
Developed an Android application to demonstrate potential security risks and pentesting techniques. Besides that I created malware that could be injected into that application.
